

女子団体の部

Figure 1 is a dendrogram illustrating the hierarchical clustering of six sites based on genetic distance. The sites are listed on the left: 西代A (Sai Dai A), 高取台B (Takudai B), 丸山 (Maruyama), 雲雀丘 (Uzuzakura), 西代B (Sai Dai B), and 高取台A (Takudai A). The dendrogram shows the following clustering pattern: Sai Dai A and Takudai B cluster at distance 1; Maruyama and Uzuzakura cluster at distance 2; Sai Dai B and Takudai A cluster at distance 1. These three pairs then cluster into a larger group at distance 2. Finally, this group clusters with the Maruyama-Uzuzakura pair at distance 3. The scale bar at the bottom indicates a distance of 0.05.
